

## Election Committee 2014

My name is Lisa Citizen and I am currently seeking the Vice President position on the executive board. I have been employed with the Baltimore County Department of Corrections for 13 1/2 years. I have been a union member for 11 of those years. Unions have been apart of my careers and personal time. I first joined a union in 1989 (Plant Guard Workers of America) and served as a steward for 5 years. During those five years I was on the negotiating team and received experience in the bargaining process.

In the past year I have served as Secretary of local 4883 on the Executive Board. I would like to serve my brothers and sisters in the position of Executive Vice President. In the past year I have become more actively involved by attending union mobilizations and leadership trainings. The mobilization resulted in over 50 new union members joining. I consider being a part of the union to be a privilege and would like to continue to be an active member of this great union.
