

BCFPE Executive Board Member, Vice President Area IV  
Angela Spencer, MBA

I am honored to serve as an Executive Board Member for the Baltimore County Federation of Public Employees (BCFPE). My journey with this organization has been inspiring, and I am excited to share a bit about my background and the contributions I bring to this position.

Currently, I hold the role of Criminal Records Supervisor in the Information Records Management Unit of the Police Department, a position I was promoted to in March 2023. My journey with Baltimore County began in April 2017 when I joined as a Criminal Records Processor.

I have been a member of the BCFPE Executive Board since 2018. During this time, I had the privilege of serving on the Negotiations Committee on two occasions. With the collaborative effort of my colleagues, we successfully secured supplemental salary for Criminal Records Processors in essential 24/7 roles within the Central Records area, a testament to our commitment to fair and just compensation.

I am grateful for the continued trust and confidence that our members and colleagues have placed in me by electing me as an Executive Board Member. I am fully committed to working diligently to fulfill this role to the best of my abilities, guided by principles of integrity, dedication, and a forward-looking vision.

Thank you for your continued support, and I look forward to the journey ahead.

Angela
