

Donna Neumeister for BCFPE Secretary!

As the current Secretary for BCFPE I am seeking your support in the current election so that our team can continue to their hard work in moving county employees forward.

I began my career with the Baltimore County 911 Center in 1989 and have graciously served on the Executive Board in various roles for over 30 years. I also served on the Negotiations Committee a number of times and successfully represented many employees during grievances at various levels, including with the Labor Commissioner. I've spent time encouraging employees to join the Union and explaining the benefits of union memberships both in collective bargaining and incentives that our members have available to them. I have marched, attended political events, attended County Council Meetings and delivered a speech to the County Council regarding reducing the years of service for retirement. My track record is well proven.

All BCFPE members deserve honest and fair representation specific to their needs within their agencies, but also as individuals. Every job classification and member we represent is valued.
